FINAL PAPER SUBMISSION DEADLINE

The 2026 IEEE International Workshop on Metrology for Automotive (IEEE MetroAutomotive 2026) aims to be a solid reference of the technical community to present and discuss the most recent advances and results of both scientific and technological research activities in the automotive industry, with particular emphasis on new trends and applications.

Attention is paid, but not limited, to new technologies for metrology-assisted production in automotive industry, sensors/diagnostics and associated signal conditioning for automotive, and calibration methods for electronic test and measurement for automotive.

The program is designed to raise the interest of a wide group of researchers, operators and decision-makers from metrology and automotive fields, by presenting the most innovative solutions from the scientific and technological points of view. The Workshop covers all aspects of the segment, with a particular focus on hybrid/full-electrical vehicles, connected autonomous cars and related mobility.

EVENTS & OPPORTUNITIES

In addition to regular papers, many initiatives and opportunities such as special sessions, exhibits, tutorials, demos, student contests, journal papers, and others are planned to enhance your experience with the conference, and will make IEEE MetroAutomotive 2026 a vibrant event to meet with people in instrumentation and measurement for automotive.

CALL FOR PAPERS

Interested researchers, academics, practitioners and industry partners are invited to submit extended abstracts for the Workshop. Papers that involve joint authorship with students, industry and community partners are encouraged.

All contributions will be peer-reviewed and acceptance will be based on quality, originality and relevance. Accepted papers will be submitted for inclusion into IEEE Xplore Digital Library.

Visit the conference website as well as social pages for each specific call and additional news.
